JOHN ROBERT PIMENTEL

Computer Engineer | Technical & Systems Specialist

linkedin.com/in/jrdpimentel github.com/jrdpimentel Pangasinan, Philippines 2444

SUMMARY

Recent Computer Engineering graduate, major in System and Network Administration, with hands-on experience in IT infrastructure, system administration, network operations, troubleshooting, and technical support. Skilled in Windows administration, Active Directory, TCP/IP, IP addressing, subnetting, VLANs, DNS, DHCP, VPN, network monitoring, hardware/software troubleshooting, and ticket-based incident resolution. Programming experience includes Python, PHP, C#, and embedded C/C++ development. Experienced in testing network infrastructure, software applications, and integrating hardware and software systems. Familiar with system monitoring, root cause analysis, software testing and validation, deployment, access management, and infrastructure troubleshooting. Seeking to apply strong analytical, technical problem-solving, automation, and reliability-focused skills to an organization with common goal.

EXPERIENCE

IT Service Management (ITSM) Internship **February 2026 – May 2026**

Foundever (BPO Company formerly known as Sitel) – Baguio City, PH

- Assisted with server room activities, such as basic network equipment handling and device maintenance
- Installed, configured, and maintained Windows 10/11 workstations, VPNs, and other network devices.
- Handled thousands of end-users' daily possible requests for assistance via calls and the Ticketing System.
- Executed imaging, testing, deploying, and maintaining PCs, company-based tools, and firmware updates.
- Managed access rights and Group Policies in Active Directory to maintain system security.
- Performed data backup and recovery, implemented security measures, and managed user records.
- Worked with firewall configuration, such as blocking VLANs from accessing a specific site and server.
- Assisted in a root cause analysis and implemented corrective actions to minimize or prevent downtime.
- Facilitated order confirmation and tracking, inventory audits, and reports for items and peripherals.

Project: NOCular – A Python-based IT system monitoring and troubleshooting application.

- Provides visibility into system health, detecting potential problems, and helping document incidents.

Technical & Customer Service Assistant **October 2022 – January 2026**

Frenzter Virgie (Printing & Computer Servicing Business) – Pangasinan, PH

- Developed, managed, and maintained a multi-functional Computer Rental Management System
- Assisted customers with printing and other services using Microsoft 365 (Word, Excel, PowerPoint, etc.).
- Handled customer inquiries, service requests, and technical concerns in person, by email, or via call.
- Provided technical assistance to customers about system issues, file formatting, and device connectivity.
- Performed troubleshooting, software installation, and hardware diagnostics for customer devices.
- Configured and maintained printers, computers, and network connections to support business operations.
- Managed inventory of computer parts, printing supplies, and technical equipment to ensure availability.
- Facilitated in setting up and maintaining applications, OS, and peripheral devices for shop and client use.
- Maintained organized digital records of customer transactions, repair requests, and completed services.

Project: MAGNOS – Management And Governance Network Operations System (M.A.G.N.O.S.)

- Computer Rental Management System with Point of Sales, and real-time monitoring feature

EDUCATION

Bachelor of Science in Computer Engineering
Major in System and Network Administration

Panpacific University
Urdaneta City, Philippines

Junior and Senior High School (STEM)
Specialized in Computer Hardware Servicing

San Quintin National High School
San Quintin, Pangasinan, Philippines

SKILLS

- System Administration
- Executive Leadership
- Customer Service Skills
- Programming Basics
- Network Administration
- Team Collaboration
- Agile Methodologies
- Critical Thinking
- Database Management
- Project Management
- Solutions Strategies
- Analytical Thinking
- OS & Infrastructure
- Creative Problem-Solving
- AI Proficiency
- Microsoft 365 Applications

CERTIFICATION

Networking
Cisco Networking Academy *Issued August 6, 2024*

- Completed training covering networking fundamentals, IP addressing, subnetting, routers, switches, and basic network configuration.
- Acquired hands-on experience through simulations using Cisco tools and network troubleshooting exercises.

Cybersecurity
Cisco Networking Academy *Issued July 26, 2023*

- Gained foundational knowledge in cybersecurity principles, threat detection, online safety, and security best practices.
- Demonstrated understanding of common attack methods, defense strategies, and basic security technologies.

SEMINARS / TRAININGS

Safety Officer 2 (SO2) Certification
Mastery Consultancy – OPC *DOLE OSHC **Accreditation No. 1030-122923-0159***

- Trained with *Basic Occupational Safety and Health* (BOSH) program for SO2s that equips safety officers with the knowledge to identify hazards, assess risks, and prevent medium to high-risk workplace accidents.

VIETNAM Company Visit: RIKAI Technology (Da Nang, Vietnam)

- Participated in technical discussions and demonstrations related to AI and software testing and development.
- Enhanced awareness of global IT industry standards, workplace culture, and best practices.
- Interacted with professionals on real-world technology applications and innovation.
- Gained an open opportunity to work with them and a close affiliation with the company.

VIETNAM Study Tour: Advancing AI, Robotics, and Drone Technology

- Participated in a hands-on international study training focused on AI, Robotics, and Drone technologies.
- Developed cross-cultural communication, teamwork, and professional network through collaboration.
